Communications dated 2/20/07 and 1/08/08 have been considered with the following results:

Specification

The amendment to the first line of the specification filed 8/20/07 is not in compliance with 37 CFR 1.173(b)(1). Any part of the sentence not in the original patent must be underlined.

Claims

Listing of claims filed 09/01/06 is to be replaced all previous versions filed in this application. However, only amended claims 5, 15, 23 and 33 are listed on the list. A new listing of claims including all of pending claims is hereby requested.

Applicant is reminded that all of pending claims in this case must be underlined since these claims are not the claims in the original patent.

Declaration

The declaration filed 8/20/07 is improper because it was signed by someone other than the inventors. Since this is a broadening Reissue, all declarations must be signed by the inventors

Claims 5-40 are rejected under 35 U.S.C. 251 as being improperly broadened in a reissue application made and sworn to by the assignee and not the patentee. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Allowable Subject Matter

Claims 5-40 are currently rejected under 35 U.S.C. 251 as set forth in this Office action. However, if a proper declaration is timely filed, claims 5-40 would be allowable including

allowable over the prior art of record.
